3rd Party Tested

Proudly made
in the USA

Product Features:

- The front and back of the cape are made using inherent flame resistant (IFR) 5.7 oz GlenGuard Hi-Vis Yellow Modacrylic / Aramid mesh that is ultra light-weight and breathable. The fabric is HRC1 ATPV 4.6, meets ANSI 107-2010 Class 2 Specifications, and is ASTM 1506 and NFPA 70E compliant.
- With the team member's comfort in mind, the back features a high arch cutout to keep them cool year-round.
- Both the vertical snaps down the front, and horizontal snaps for bib attachment are covered to provide protection from mutilation.
- 3M Retro-Reflective Silver Segmented striping on the front and back complete this high-performance cape that will be comfortable to wear, and comfort equals compliance.

Will Not Burn, Melt, or Drip.

- The sleeves are made using a 7 oz IFR black Twaron® Engineered fabric that has cut and puncture protection and feels cool to the touch.
- To keep miscellaneous items within easy reach, a 3.5" x 5" double pocket is sewn on the left sleeve and has two pen slots on the outer pocket.
- The black Twaron® knit wrist with thumb hole provides A2 cut protection and locks the sleeve in place when donning a glove, so it does not ride up the arm and expose the vulnerable wrist.

IFR Hi-Vis Cape Sleeve with Cut and Puncture Protection

TSG-1111-2

TSG-1111-2 is available in sizes Small to 5XL. Additional sizes and laundry instructions are available upon request.

Create a PPE System

We recommend creating a PPE "System" by pairing the cape sleeve with a snap-on bib made using the same high-performance cut & puncture fabric. Available in 18", 24" and 30" lengths.

(Order using part number TSG-1112 + length).

We also make
gloves; it's
right in our
name!

We have 13 &
7 gauge gloves
from A2 to A9
and can ship
in 1-3 days.

Hi-Arch Cutout
To Keep Them Cool

To Be Sure,
Tri-Star uses Twaron® for its superior cut, abrasion,
and thermal resistance.

Tri-Star uses only 100% virgin Twaron®, as recycled para-aramids could compromise the performance of the glove, and yarn could be inconsistent from shipment to shipment. For more information on Twaron, visit <https://teijinaramid.com/en/products/>

Tri-Star Glove customizes garments for your industry needs.
