At-a-Glance:

- Lightweight IFR Woven Sleeve
- 7oz TS600 Twaron® Engineered fabric
- Heather Black
- Cool Feeling
- Black Twaron® Knit Wrist with Thumb Hole
- Inherent Flame Resistant (IFR)

Proudly made
in the USA

Won't Burn, Melt, or Drip

Description:

When neither a jacket or cape are necessary PPE for the hazards of the job, and the team members only need to wear sleeves, the TSG-1122 Twaron® Engineered sleeves provide multi-threat protection. With years of proven service in bodyweld and stamping areas, these sleeves are comfortable to wear, and comfort equals compliance.

This sleeve includes a 100% black Twaron® knit wrist with a thumb hole to lock the sleeve in place under the glove. This eliminates the possibility of exposing the vulnerable wrist.

Both the sleeve and knit wrist are Inherent Flame Resistant (IFR). This means the properties are inherent to the fiber and cannot be laundered out over the life of the fabric.

The darker color helps hide the dirt and launders very well.

Tri-Star Glove customizes garments for your industry needs.

Cut and Puncture Protection

TSG-1122 Series

Color coded elastic at bicep helps keep the sleeve up and identifies the size, as listed below.

Part Number	Elastic Color at Bicep	Sleeve Length
TSG-1122-S	Black/White Elastic	22"
TSG-1122-M	Blue/Gold Elastic	24"
TSG-1122-L	Blue/Black Elastic	24"
TSG-1122-XLW	Green/Gold Elastic	24"

Customizable to Suit Your Needs:

These sleeves can be customized specific to your company and your process.

When the task dictates additional protection is required, the sleeves can be made into a cape sleeve with a snap-on bib to create a PPE System. Mix and match high-performance fabrics on the front and back of the cape specific to the threat. We can even turn these sleeves into a jacket!

Laundry Instructions:

NEVER USE BLEACH OR FABRIC SOFTENER

- Wash at 104F-140F with mild detergent without OxyClean (such as Tide Original)
- Rinse with cool water, low spin.
- Air-dry, hang to dry, or tumble-dry on low.

Four Sizes to Fit the Majority of Team Members (call for custom sizes)

Sleeves Made into a Cape Sleeve with Barrweld Lite Front (TSG-1120-3)

Also Available with Hook & Loop at the Bicep to Help Adjust the Fit (TSG-1122-V)

To Be Sure,
Tri-Star uses Twaron® for its superior cut, abrasion,
and thermal resistance.

Tri-Star uses only 100% virgin Twaron®, as recycled para-aramids could compromise the performance of the glove, and yarn could be inconsistent from shipment to shipment. For more information on Twaron, visit <https://teijinaramid.com/en/products/>
